

Once Customer Is Accepted And Payment Is Done, The Franchise Will Get Notified About It And In The Lead List The Payment Details Are Also Shown. Franchise Can Update The Work / Service Status Whether It Is Under Process Or Completed. If It Is Completed The Franchise Will Share All Details Including Application Number Etc. To The Customer. Customer Can Access All These Things Through "application History". Page. Admin Can Also View All The Transactions And Details.

Q1: as per mention in the figma franchise can update the work/service status but here is not clear how status will update the franchise in the figma?

(MAXIMUM 500 LETTERS)

Submit

Q2: how will I navigate to this page? From lead table? Once franchise send the quotation to client and client done the payment then how can I access to this page? There should be separate button for this or not? What you want? If you want this page should be access from same button "send quotation" just change the status there then status will not be handled by franchise it will handled automatically but separate button is recommended if you know any better option let me know
